German - Norwegian Seminar:  
*Innovation in the transport sector - solutions from a leading European e-mobility market*

**Date & Time:** 10th October 2017 | 12:30 h – 14:40 h  
**Venue:** Messe Stuttgart, Verwaltungsgebäude Messepiazza 1, Room „Stuttgart“

**Norway is doing it!** The country is focusing on a radical change in the traffic sector. Norway’s post-oil economy: a chance for German companies?

**Baden-Württemberg** is the cradle of the automotive vehicle and well known for its innovative companies working on future technology solutions in sustainable mobility.

**e-mobil BW, Baden-Württemberg International and Innovation Norway** invite German and Norwegian companies, technology networks, universities and research institutes to exchange knowledge and discuss views and experiences about current solutions in the European e-mobility market **focusing on charging solutions and urban mobility**. The overall aim of the seminar is to establish mutual business and technology collaborations between Norway and Baden-Württemberg. Take your chance to meet experts from leading e-mobility markets and inform yourself about the economic and scientific opportunities in Norway and Baden-Württemberg!

The participation at the seminar is free of charge. Registration is essential, please klick **HERE** to register online. Registration deadline is October 6th, 2017.

**The Royal Norwegian Embassy will host a reception for all participants after the seminar.**
